Guided Implant Course To All-In

SEPTEMBER 5-9, 2024 | BELIZE | 33 CE CREDITS | \$13,500

Course Description

Begin your journey to master the All-In Implant System through our specialized curriculum tailored for doctors, even those new to implantology. This comprehensive course provides a thorough exploration of presurgical planning methodologies, complemented by the latest precision-centric systems. What sets this program apart is its focus on implementing efficient techniques to ensure optimal osteointegration, a vital aspect of successful implant procedures. By leveraging state-of-the-art methodologies, participants not only elevate their procedural proficiency but also contribute significantly to minimizing bone loss—a groundbreaking advancement in dentistry.
